

SAFETY RECALL NOTICE

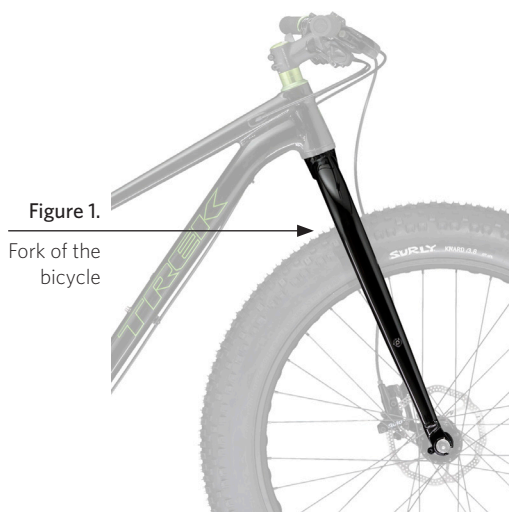

Dear Trek Consumer,

Thank you for your recent purchase of a Trek Farley. Our records indicate that you purchased one of the following models:

- 2014 Farley
- 2014 Farley frame set
- 2015 Farley 6
- 2015 Farley 6 frame set

A small number of these bicycles were made with a fork that was assembled incorrectly. An incorrectly assembled fork could come out of alignment with the handlebar, which could allow the front wheel to turn unexpectedly and cause you to fall. If this happens, you could be involved in a serious accident.

Your safety is very important to us. Therefore, Trek will replace the fork on any affected bicycles, free of charge. This letter contains important information regarding what to do next if you think you may have purchased one of these bicycles or frame sets.

AFFECTED MODELS

Only specific bicycles from model years 2014 and 2015 are affected. The following page shows you how to identify the affected models.

DO NOT RIDE YOUR BICYCLE UNTIL THE FORK HAS BEEN INSPECTED

If the front wheel turns unexpectedly, you could be involved in a serious accident. Do not ride this bicycle until your dealer has inspected the fork to determine if it is affected by this recall.
